ANNUAL INDEX
Vol 33, 1985

Author Index

Ackerman LV
Artificial intelligence and image processing. Burke MW. 1985;33:142-5.

Digital radiography: A review. Kastan DJ, Feczko PJ, Beute GH. 1985;33:88-94.

Anderson MD
Malnutrition and length of stay - a relationship? Collins G, Davis G, Bivins BA. 1985;33:190-3.

Armstrong JR
The invalidity of monitoring transcutaneous oxygen tension in patients who have chronic renal failure. Kreps TW, Conway WA, Dumler F, Popovich J Jr. 1985; 33:57-60.

Ausman JI
Computed tomographic and sonographic characterizations of central nervous system masses. Madrazo BL, Sanders WP, Mehta B, Dujovny M, Sandler MA, Chason DP, Chason JL. 1985; 33:69-73.

Barsky D
Hereditary sclerocornea. Dunn SP. 1985; 33:185-9.

Beierwaltes WH
Playing with medicine: A historical perspective. 1985;33:27-33.

Benish WA
A graphical aid to medical decision making. 1985;33:34-5.

Beute GH
Digital radiography: A review. Kastan DJ, Ackerman LV, Feczko PJ. 1985;33:88-94.

Biunno EM
The incidence of calculi in focal nonshadowing echogenicity in the gallbladder. Sandler MA, Gross ML, Madrazo BL. 1985;33:112-5.

Bivins BA
Malnutrition and length of stay - a relationship? Anderson MD, Collins G, Davis G. 1985; 33:190-3.

Bogorad DD
Intraocular lens implant image quality: The optico-retinal interface. 1985;33:153-9.

Boulos RS
Cerebral angiography in posterior fossa revascularization. Patel S, Mehta B, Jack C. 1985;33:74-81.

Brunner JE
Central pontine myelinolysis in a patient with adrenal insufficiency. 1985;33:45-7.

Brymer JF
Preliminary experience with digital subtraction angiography in cardiac evaluation. Burke MW, Shetty PC, Sharma R, Khaja F. 1985;33:95-101.

Burke MW
Artificial intelligence and image processing. Ackerman LV. 1985;33:142-5.

Digital subtraction angiography of the abdomen: Henry Ford Hospital experience. Sharma RP, Krasicky GA, Jampala SB, Shetty PC, Swanson DP. 1985;33:105-11.

Percutaneous nephrolithotomy: Current methods and the Henry Ford Hospital experience. Shetty PC, Sharma RP, Littleton RH, Krasicky GA, Miles BJ, Thrall JH, Cerny JC. 1985;33:133-7.

Preliminary experience with digital subtraction angiography in cardiac evaluation. Shetty PC, Sharma R, Brymer JF, Khaja F. 1985;33:95-101.

Burnham TK
The pseudo-leukocyte-specific/nuclear membrane antinuclear antibody pattern: A puzzle. 1985;33:198-204.

Cerny JC
Percutaneous nephrolithotomy: Current methods and the Henry Ford Hospital experience. Shetty PC, Sharma RP, Littleton RH, Krasicky GA, Burke MW, Miles BJ, Thrall JH. 1985; 33:133-7.

Chason DP
Computed tomographic and sonographic characterizations of central nervous system masses. Madrazo BL, Sanders WP, Mehta B, Dujovny M, Sandler MA, Chason JL, Ausman JI. 1985; 33:69-73.

Chason JL
Computed tomographic and sonographic characterizations of central nervous system masses. Madrazo BL, Sanders WP, Mehta B, Dujovny M, Sandler MA, Chason DP, Ausman JI. 1985; 33:69-73.

Collins G
Malnutrition and length of stay - a relationship? Anderson MD, Davis G, Bivins BA. 1985; 33:190-3.

Conway WA
Adverse interactions of drugs in critical care patients. Zarowitz B, Popovich J Jr. 1985;33:48-56.

The invalidity of monitoring transcutaneous oxygen tension in patients who have chronic renal failure. Armstrong JR, Kreps TW, Dumler F, Popovich J Jr. 1985;33:57-60.

Crossen RJ
Corneal stability with rigid gas permeable lens refitting. 1985;33:225.

Davis G
Malnutrition and length of stay - a relationship? Anderson MD, Collins G, Bivins BA. 1985; 33:190-3.

Dekker A
Immunocytologic methods in the diagnosis of orbital tumors. Reifler DM, Kini SR, Kennerdell JS, Fisher LJ. 1985;33:180-4.

Demas BE
Applications of magnetic resonance imaging in clinical urology. Hricak H. 1985;33:128-32.

Dubin LM
The tube esophagogram in cases of possible esophageal stricture: A technical note. Halpert RD, Feczko PJ, Kottamasu SR. 1985;33:102-4.

Dujovny M
Computed tomographic and sonographic characterizations of central nervous system masses. Madrazo BL, Sanders WP, Mehta B, Sandler MA, Chason DP, Chason JL, Ausman JI. 1985; 33:69-73.

Dumler F
The invalidity of monitoring transcutaneous oxygen tension in patients who have chronic renal failure. Armstrong JR, Kreps TW, Conway WA, Popovich J Jr. 1985;33:57-60.

Dunn SP
Hereditary sclerocornea. Barsky D. 1985; 33:185-9.

Feczko PJ
Digital radiography: A review. Kastan DJ, Ackerman LV, Beute GH. 1985;33:88-94.

Enteroclysis for the examination of the small bowel. Halpert RD, Keller CE, Iorio J. 1985; 33:116-21.

The tube esophagogram in cases of possible esophageal stricture: A technical note. Dubin LM, Halpert RD, Kottamasu SR. 1985;33:102-4.

Fine G
Leiomyosarcoma of the heart: A twenty-year cure. Raju BU. 1985;33:41-4.

Fisher LJ
Immunocytologic methods in the diagnosis of orbital tumors. Reifler DM, Kini SR, Kennerdell JS, Dekker A. 1985;33:180-4.

Foreback C
Childhood lead poisoning. Warrier RP, Waisanen J, Kottamasu SR, Sultana S, Kini KR, Kestenberg WL, Strauthers J. 1985;33:205-8.

Froelich JW
Nuclear magnetic resonance: Current and future clinical applications. Hearshen DO, Halpert RD, Patel S. 1985;33:122-7.

Gross ML
Diagnosis of hepatic portal venous gas by computed tomography: Role of intravenous contrast material. Haggar AM, Sandler MA, Madrazo BL. 1985;33:36-8.

The incidence of calculi in focal nonshadowing echogenicity in the gallbladder. Sandler MA, Biunno EM, Madrazo BL. 1985;33:112-5.

Bogorad DD
Intraocular lens implant image quality: The optico-retinal interface. 1985;33:153-9.

Boulos RS
Cerebral angiography in posterior fossa revascularization. Patel S, Mehta B, Jack C. 1985;33:74-81.

Brunner JE
Central pontine myelinolysis in a patient with adrenal insufficiency. 1985;33:45-7.

Brymer JF
Preliminary experience with digital subtraction angiography in cardiac evaluation. Burke MW, Shetty PC, Sharma R, Khaja F. 1985;33:95-101.

Burke MW
Artificial intelligence and image processing. Ackerman LV. 1985;33:142-5.

Digital subtraction angiography of the abdomen: Henry Ford Hospital experience. Sharma RP, Krasicky GA, Jampala SB, Shetty PC, Swanson DP. 1985;33:105-11.

Percutaneous nephrolithotomy: Current methods and the Henry Ford Hospital experience. Shetty PC, Sharma RP, Littleton RH, Krasicky GA, Miles BJ, Thrall JH, Cerny JC. 1985;33:133-7.

Preliminary experience with digital subtraction angiography in cardiac evaluation. Shetty PC, Sharma R, Brymer JF, Khaja F. 1985;33:95-101.

Burnham TK
The pseudo-leukocyte-specific/nuclear membrane antinuclear antibody pattern: A puzzle. 1985;33:198-204.

Cerny JC
Percutaneous nephrolithotomy: Current methods and the Henry Ford Hospital experience. Shetty PC, Sharma RP, Littleton RH, Krasicky GA, Burke MW, Miles BJ, Thrall JH. 1985; 33:133-7.

Chason DP
Computed tomographic and sonographic characterizations of central nervous system masses. Madrazo BL, Sanders WP, Mehta B, Dujovny M, Sandler MA, Chason JL, Ausman JI. 1985; 33:69-73.

Chason JL
Computed tomographic and sonographic characterizations of central nervous system masses. Madrazo BL, Sanders WP, Mehta B, Dujovny M, Sandler MA, Chason DP, Ausman JI. 1985; 33:69-73.

Collins G
Malnutrition and length of stay - a relationship? Anderson MD, Davis G, Bivins BA. 1985; 33:190-3.

Conway WA
Adverse interactions of drugs in critical care patients. Zarowitz B, Popovich J Jr. 1985;33:48-56.

The invalidity of monitoring transcutaneous oxygen tension in patients who have chronic renal failure. Armstrong JR, Kreps TW, Dumler F, Popovich J Jr. 1985;33:57-60.

Crossen RJ
Corneal stability with rigid gas permeable lens refitting. 1985;33:225.

Davis G
Malnutrition and length of stay - a relationship? Anderson MD, Collins G, Bivins BA. 1985; 33:190-3.

Dekker A
Immunocytologic methods in the diagnosis of orbital tumors. Reifler DM, Kini SR, Kennerdell JS, Fisher LJ. 1985;33:180-4.

Demas BE
Applications of magnetic resonance imaging in clinical urology. Hricak H. 1985;33:128-32.

Dubin LM
The tube esophagogram in cases of possible esophageal stricture: A technical note. Halpert RD, Feczko PJ, Kottamasu SR. 1985;33:102-4.

Dujovny M
Computed tomographic and sonographic characterizations of central nervous system masses. Madrazo BL, Sanders WP, Mehta B, Sandler MA, Chason DP, Chason JL, Ausman JI. 1985; 33:69-73.

Dumler F
The invalidity of monitoring transcutaneous oxygen tension in patients who have chronic renal failure. Armstrong JR, Kreps TW, Conway WA, Popovich J Jr. 1985;33:57-60.

Dunn SP
Hereditary sclerocornea. Barsky D. 1985; 33:185-9.

Feczko PJ
Digital radiography: A review. Kastan DJ, Ackerman LV, Beute GH. 1985;33:88-94.

Enteroclysis for the examination of the small bowel. Halpert RD, Keller CE, Iorio J. 1985; 33:116-21.

The tube esophagogram in cases of possible esophageal stricture: A technical note. Dubin LM, Halpert RD, Kottamasu SR. 1985;33:102-4.

Fine G
Leiomyosarcoma of the heart: A twenty-year cure. Raju BU. 1985;33:41-4.

Fisher LJ
Immunocytologic methods in the diagnosis of orbital tumors. Reifler DM, Kini SR, Kennerdell JS, Dekker A. 1985;33:180-4.

Foreback C
Childhood lead poisoning. Warrier RP, Waisanen J, Kottamasu SR, Sultana S, Kini KR, Kestenberg WL, Strauthers J. 1985;33:205-8.

Froelich JW
Nuclear magnetic resonance: Current and future clinical applications. Hearshen DO, Halpert RD, Patel S. 1985;33:122-7.

Gross ML
Diagnosis of hepatic portal venous gas by computed tomography: Role of intravenous contrast material. Haggar AM, Sandler MA, Madrazo BL. 1985;33:36-8.

The incidence of calculi in focal nonshadowing echogenicity in the gallbladder. Sandler MA, Biunno EM, Madrazo BL. 1985;33:112-5.

Haggar AM
Diagnosis of hepatic portal venous gas by computed tomography: Role of intravenous contrast material. Sandler MA, Gross ML, Madrazo BL. 1985;33:36-8.

Hálpert RD
Diagnostic imaging in the 1980s: Quo vadis? Thrall JH. 1985;33:67-8.

Enteroclysis for the examination of the small bowel. Feczko PJ, Keller CE, Iorio J. 1985; 33:116-21.

Nuclear magnetic resonance: Current and future clinical applications. Froelich JW, Hearshen DO, Patel S. 1985;33:122-7.

The tube esophagogram in cases of possible esophageal stricture: A technical note. Dubin LM, Feczko PJ, Kottamasu SR. 1985;33:102-4.

Hearshen DO
Nuclear magnetic resonance: Current and future clinical applications. Froelich JW, Halpert RD, Patel S. 1985;33:122-7.

Hricak H
Applications of magnetic resonance imaging in clinical urology. Demas BE. 1985;33:128-32.

Iorio J
Enteroclysis for the examination of the small bowel. Halpert RD, Feczko PJ, Keller CE. 1985;33:116-21.

Jack C
Cerebral angiography in posterior fossa revascularization. Boulos RS, Patel S, Mehta B. 1985;33:74-81.

Jampala SB
Digital subtraction angiography of the abdomen: Henry Ford Hospital experience. Sharma RP, Krasicky GA, Burke MW, Shetty PC, Swanson DP. 1985;33:105-11.

Jundt J
Dermatomyositis complicated by thrombotic thrombocytopenic purpura. Sawdyk MA. 1985;33:214-8.

Kastan DJ
Digital radiography: A review. Ackerman LV, Feczko PJ, Beute GH. 1985;33:88-94.

Keller CE
Enteroclysis for the examination of the small bowel. Halpert RD, Feczko PJ, Iorio J. 1985; 33:116-21.

Mammography: Still the imaging standard. Watt AC. 1985;33:82-7.

Kennerdell JS
Immunocytologic methods in the diagnosis of orbital tumors. Reifler DM, Kini SR, Dekker A, Fisher LJ. 1985;33:180-4.

Kestenberg WL
Childhood lead poisoning. Warrier RP, Waisanen J, Kottamasu SR, Sultana S, Kini KR, Strauthers J, Foreback C. 1985;33:205-8.

Keyes JW Jr
Current concepts of metabolic functional imaging with positron emitters. 1985;33:138-41.

Khaja F
Preliminary experience with digital subtraction angiography in cardiac evaluation. Burke MW, Shetty PC, Sharma R, Brymer JF. 1985;33:95-101.

Kini KR
Childhood lead poisoning. Warrier RP, Waisanen J, Kottamasu SR, Sultana S, Kestenberg WL, Strauthers J, Foreback C. 1985;33:205-8.

Kini SR
Immunocytologic methods in the diagnosis of orbital tumors. Reifler DM, Kennerdell JS, Dekker A, Fisher LJ. 1985;33:180-4.

Kottamasu SR
Childhood lead poisoning. Warrier RP, Waisanen J, Sultana S, Kini KR, Kestenberg WL, Strauthers J, Foreback C. 1985;33:205-8.

The tube esophagogram in cases of possible esophageal stricture: A technical note. Dubin LM, Halpert RD, Feczko PJ. 1985;33:102-4.

Krasicky GA
Digital subtraction angiography of the abdomen: Henry Ford Hospital experience. Sharma RP, Burke MW, Jampala SB, Shetty PC, Swanson DP. 1985;33:105-11.

Percutaneous nephrolithotomy: Current methods and the Henry Ford Hospital experience. Shetty PC, Sharma RP, Littleton RH, Burke MW, Miles BJ, Thrall JH, Cerny JC. 1985;33:133-7.

Kreps TW
The invalidity of monitoring transcutaneous oxygen tension in patients who have chronic renal failure. Armstrong JR, Conway WA, Dumler F, Popovich J Jr. 1985;33:57-60.

Kvale P
Metastatic bronchogenic carcinoma simulating osteoarthritis. Wendt D. 1985;33:39-40.

Lam CR
In defense of historians. 1985;33:61.

The strange story of Jay McLean, the discoverer of heparin. 1985;33:18-23.

Littleton RH
Percutaneous nephrolithotomy: Current methods and the Henry Ford Hospital experience. Shetty PC, Sharma RP, Krasicky GA, Burke MW, Miles BJ, Thrall JH, Cerny JC. 1985;33:133-7.

Madrazo BL
Computed tomographic and sonographic characterizations of central nervous system masses. Sanders WP, Mehta B, Dujovny M, Sandler MA, Chason DP, Chason JL, Ausman JI. 1985;33:69-73.

Diagnosis of hepatic portal venous gas by computed tomography: Role of intravenous contrast material. Haggar AM, Sandler MA, Gross ML. 1985;33:36-8.

The incidence of calculi in focal nonshadowing echogenicity in the gallbladder. Sandler MA, Biunno EM, Gross ML. 1985;33:112-5.

Markel H
In defense of the Pickwickian syndrome. 1985;33:24-6.

Mehta B
Cerebral angiography in posterior fossa revascularization. Boulos RS, Patel S, Jack C. 1985; 33:74-81.

Computed tomographic and sonographic characterizations of central nervous system masses. Madrazo BL, Sanders WP, Dujovny M, Sandler MA, Chason DP, Chason JL, Ausman JI. 1985; 33:69-73.

Miles BJ
Percutaneous nephrolithotomy: Current methods and the Henry Ford Hospital experience. Shetty PC, Sharma RP, Littleton RH, Krasicky GA, Burke MW, Thrall JH, Cerny JC. 1985; 33:133-7.

Ozkan K
Evaluation of Peutz-Jeghers syndrome in a family. 1985;33:209-13.

Patel S
Cerebral angiography in posterior fossa revascularization. Boulos RS, Mehta B, Jack C. 1985; 33:74-81.

Nuclear magnetic resonance: Current and future clinical applications. Froelich JW, Hearshen DO, Halpert RD. 1985;33:122-7.

Popovich J Jr
Adverse interactions of drugs in critical care patients. Zarowitz B, Conway W. 1985;33:48-56.

The invalidity of monitoring transcutaneous oxygen tension in patients who have chronic renal failure. Armstrong JR, Kreps TW, Conway WA, Dumler F. 1985;33:57-60.

Raju BU
Leiomyosarcoma of the heart: A twenty-year cure. Fine G. 1985;33:41-4.

Rao DS
Primary hyperparathyroidism: Changing patterns in presentation and treatment decisions in the eighties. 1985;33:194-7.

Reifler DM
Immunocytologic methods in the diagnosis of orbital tumors. Kini SR, Kennerdell JS, Dekker A, Fisher LJ. 1985;33:180-4.

Orbital metastasis with enophthalmos: A review of the literature. 1985;33:171-9.

Riddle JM
Electron microscopic examination of various types of ancient specimens. 1985;33:3-8.

Sanders WP
Computed tomographic and sonographic characterizations of central nervous system masses. Madrazo BL, Mehta B, Dujovny M, Sandler MA, Chason DP, Chason JL, Ausman JI. 1985;69-73.

Sandler MA
Computed tomographic and sonographic characterizations of central nervous system masses. Madrazo BL, Sanders WP, Mehta B, Dujovny M, Chason DP, Chason JL, Ausman JI. 1985;33:69-73.

Diagnosis of hepatic portal venous gas by computed tomography: Role of intravenous contrast material. Haggar AM, Gross ML, Madrazo BL. 1985;33:36-8.

The incidence of calculi in focal nonshadowing echogenicity in the gallbladder. Biunno EM, Gross ML, Madrazo BL. 1985;33:112-5.

Sawdyk MA
Dermatomyositis complicated by thrombotic thrombocytopenic purpura. Jundt J. 1985;33:214-8.

Schork A
Clinical trials: II. Randomization and sample size. Tilley B. 1985;33:219-24.

Sharma RP
Digital subtraction angiography of the abdomen: Henry Ford Hospital experience. Krasicky GA, Burke MW, Jampala SB, Shetty PC, Swanson DP. 1985;33:105-11.

Percutaneous nephrolithotomy: Current methods and the Henry Ford Hospital experience. Shetty PC, Littleton RH, Krasicky GA, Burke MW, Miles BJ, Thrall JH, Cerny JC. 1985;33:133-7.

Preliminary experience with digital subtraction angiography in cardiac evaluation. Burke MW, Shetty PC, Brymer JF, Khaja F. 1985;33:95-101.

Shetty PC
Digital subtraction angiography of the abdomen: Henry Ford Hospital experience. Sharma RP, Krasicky GA, Burke MW, Jampala SB, Swanson DP. 1985;33:105-11.

Percutaneous nephrolithotomy: Current methods and the Henry Ford Hospital experience. Sharma RP, Littleton RH, Krasicky GA, Burke MW, Miles BJ, Thrall JH, Cerny JC. 1985;33:133-7.

Preliminary experience with digital subtraction angiography in cardiac evaluation. Burke MW, Sharma R, Brymer JF, Khaja F. 1985;33:95-101.

Smith RW Jr
Dr Frank J. Sladen: The Osler connection. 1985;33:9-12.

Steinhauer BW
The development of multispecialty group practice at Henry Ford Hospital through the years. 1985;33:13-7.

Strauthers J
Childhood lead poisoning. Warrier RP, Waisanen J, Kottamasu SR, Sultana S, Kini KR, Kestenberg WL, Foreback C. 1985;33:205-8.

Sugar S
Glaucoma filtration surgery: A personal review. 1985;33:160-3.

Some unusual foreign bodies in the anterior segment of the eye and the orbit. 1985;33:164-70.

Sultana S
Childhood lead poisoning. Warrier RP, Waisanen J, Kottamasu SR, Kini KR, Kestenberg WL, Strauthers J, Foreback C. 1985;33:205-8.

Swanson DP
Digital subtraction angiography of the abdomen: Henry Ford Hospital experience. Sharma RP, Krasicky GA, Burke MW, Jampala SB, Shetty PC. 1985;33:105-11.

Thrall JH
Diagnostic imaging in the 1980s: Quo vadis? Halpert RD. 1985;33:67-8.

Percutaneous nephrolithotomy: Current methods and the Henry Ford Hospital experience. Shetty PC, Sharma RP, Littleton RH, Krasicky GA, Burke MW, Miles BJ, Cerny JC. 1985;33:133-7.

Tilley B
Clinical trials: II. Randomization and sample size. Schork A. 1985;33:219-24.

Waisanen J
Childhood lead poisoning. Warrier RP, Kottamasu SR, Sultana S, Kini KR, Kestenberg WL, Strauthers J, Foreback C. 1985;33:205-8.

Warrier RP
Childhood lead poisoning. Waisanen J, Kottamasu SR, Sultana S, Kini KR, Kestenberg WL, Strauthers J, Foreback C. 1985;33:205-8.

Watt AC
Mammography: Still the imaging standard. Keller CE. 1985;33:82-7.

Wendt D
Metastatic bronchogenic carcinoma simulating osteoarthritis. Kvale P. 1985;33:39-40.

Zarowitz B
Adverse interactions of drugs in critical care patients. Conway W, Popovich J Jr. 1985;33:48-56.

Subject Index

Angiography
Digital subtraction angiography of the abdomen: Henry Ford Hospital experience. Sharma RP, Krasicky GA, Burke MW, Jampala SB, Shetty PC, Swanson DP. 1985;33:105-11.

Preliminary experience with digital subtraction angiography in cardiac evaluation. Burke MW, Shetty PC, Sharma R, Brymer JF, Khaja F. 1985;33:95-101.

Angiography, cerebral
Cerebral angiography in posterior fossa revascularization. Boulos RS, Patel S, Mehta B, Jack C. 1985;33:74-81.

Antinuclear factors
The pseudo-leukocyte-specific/nuclear membrane antinuclear antibody pattern: A puzzle. Burnham TK. 1985;33:198-204.

Artificial intelligence
Artificial intelligence and image processing. Ackerman LV, Burke MW. 1985;33:142-5.

Biopsy, needle
Immunocytologic methods in the diagnosis of orbital tumors. Reifler DM, Kini SR, Kennerdell JS, Dekker A, Fisher LJ. 1985;33:180-4.

Orbital metastasis with enophthalmos: A review of the literature. Reifler DM. 1985;33:171-9.

Brain
Cerebral angiography in posterior fossa revascularization. Boulos RS, Patel S, Mehta B, Jack C. 1985;33:74-81.

Computed tomographic and sonographic characterizations of central nervous system masses. Madrazo BL, Sanders WP, Mehta B, Dujovny M, Sandler MA, Chason DP, Chason JL, Ausman JI. 1985;33:69-73.

Calculi
Percutaneous nephrolithotomy: Current methods and the Henry Ford Hospital experience. Shetty PC, Sharma RP, Littleton RH, Krasicky GA, Burke MW, Miles BJ, Thrall JH, Cerny JC. 1985;33:133-7.

The incidence of calculi in focal nonshadowing echogenicity in the gallbladder. Sandler MA, Biunno EM, Gross ML, Madrazo BL. 1985; 33:112-5.

Computer
Artificial intelligence and image processing. Ackerman LV, Burke MW. 1985;33:142-5.

Contrast media
Central pontine myelinolysis in a patient with adrenal insufficiency. Brunner JE. 1985;33:45-7.

Dermatomyositis
Dermatomyositis complicated by thrombotic thrombocytopenic purpura. Sawdyk MA, Jundt J. 1985;33:214-8.

Drug interaction
Adverse interactions of drugs in critical care patients. Zarowitz B, Conway W, Popovich J Jr. 1985;33:48-56.

Electron microscopy
Electron microscopic examination of various types of ancient specimens. Riddle JM. 1985; 33:3-8.

Enophthalmos
Orbital metastasis with enophthalmos: A review of the literature. Reifler DM. 1985;33:171-9.

Esophagus
The tube esophagogram in cases of possible esophageal stricture: A technical note. Dubin LM, Halpert RD, Feczko PJ, Kottamasu SR. 1985;33:102-4.

Eye
Corneal stability with rigid gas permeable lens refitting. Crossen RJ. 1985;33:225.

Glaucoma filtration surgery: A personal review. Sugar S. 1985;33:160-3.

Hereditary sclerocornea. Barsky D, Dunn SP. 1985;33:185-9.

Eye, foreign bodies
Some unusual foreign bodies in the anterior segment of the eye and the orbit. Sugar S. 1985;33:164-70.

Eye neoplasms
Immunocytologic methods in the diagnosis of orbital tumors. Reifler DM, Kini SR, Kennerdell JS, Dekker A, Fisher LJ. 1985;33:180-4.

Orbital metastasis with enophthalmos: A review of the literature. Reifler DM. 1985;33:171-9.

Gallbladder
The incidence of calculi in focal nonshadowing echogenicity in the gallbladder. Sandler MA, Biunno EM, Gross ML, Madrazo BL. 1985; 33:112-5.

Glaucoma
Glaucoma filtration surgery: A personal review. Sugar S. 1985;33:160-3.

Group practice
The development of multispecialty group practice at Henry Ford Hospital through the years. Steinhauer BW. 1985;33:13-7.

Heart
Leiomyosarcoma of the heart: A twenty-year cure. Fine G, Raju BU. 1985;33:41-4.

Preliminary experience with digital subtraction angiography in cardiac evaluation. Burke MW, Shetty PC, Sharma R, Brymer JF, Khaja F. 1985;33:95-101.

Henry Ford Hospital
Dr Frank J. Sladen: The Osler connection. Smith RW Jr. 1985;33:9-12.

The development of multispecialty group practice at Henry Ford Hospital through the years. Steinhauer BW. 1985;33:13-7.

Heparin
The strange story of Jay McLean, the discoverer of heparin. Lam CR. 1985;33:18-23.

History of medicine
Dr Frank J. Sladen: The Osler connection. Smith RW Jr. 1985;33:9-12.

Electron microscopic examination of various types of ancient specimens. Riddle JM. 1985; 33:3-8.

In defense of historians. Lam CR. 1985;33:61.

In defense of the Pickwickian syndrome. Markel H. 1985;33:24-6.

Playing with medicine: A historical perspective. Beierwaltes WH. 1985;33:27-33.

The development of multispecialty group practice at Henry Ford Hospital through the years. Steinhauer BW. 1985;33:13-7.

The strange story of Jay McLean, the discoverer of heparin. Lam CR. 1985;33:18-23.

Hyperparathyroidism
Primary hyperparathyroidism: Changing patterns in presentation and treatment decisions in the eighties. Rao DS. 1985;33:194-7.

Hyponatremia
Central pontine myelinolysis in a patient with adrenal insufficiency. Brunner JE. 1985;33:45-7.

Immunoenzyme technics
Immunocytologic methods in the diagnosis of orbital tumors. Reifler DM, Kini SR, Kennerdell JS, Dekker A, Fisher LJ. 1985;33:180-4.

Intestine
Enteroclysis for the examination of the small bowel. Halpert RD, Feczko PJ, Keller CE, Iorio J. 1985;33:116-21.

Kidney
Percutaneous nephrolithotomy: Current methods and the Henry Ford Hospital experience. Shetty PC, Sharma RP, Littleton RH, Krasicky GA, Burke MW, Miles BJ, Thrall JH, Cerny JC. 1985;33:133-7.

Lead poisoning
Childhood lead poisoning. Warrier RP, Waisanen J, Kottamasu SR, Sultana S, Kini KR, Kestenberg WL, Strauthers J, Foreback C. 1985;33:205-8.

Leiomyosarcoma
Leiomyosarcoma of the heart: A twenty-year cure. Fine G, Raju BU. 1985;33:41-4.

Length of stay
Malnutrition and length of stay - a relationship? Anderson MD, Collins G, Davis G, Bivins BA. 1985;33:190-3.

Lens, contact
Corneal stability with rigid gas permeable lens refitting. Crossen RJ. 1985;33:225.

Lenses, intraocular
Intraocular lens implant image quality: The optico-retinal interface. Bogorad DD. 1985; 33:153-9.

Liver
Diagnosis of hepatic portal venous gas by computed tomography: Role of intravenous contrast material. Haggar AM, Sandler MA, Gross ML, Madrazo BL. 1985;33:36-8.

Lung diseases
Metastatic bronchogenic carcinoma simulating osteoarthritis. Wendt D, Kvale P. 1985;33:39-40.

Lung diseases, obstructive
In defense of the Pickwickian syndrome. Markel H. 1985;33:24-6.

Malnutrition
Malnutrition and length of stay - a relationship? Anderson MD, Collins G, Davis G, Bivins BA. 1985;33:190-3.

Mammography
Mammography: Still the imaging standard. Keller CE, Watt AC. 1985;33:82-7.

Medical decision making
A graphical aid to medical decision making. Benish WA. 1985;33:34-5.

Myelinolysis
Central pontine myelinolysis in a patient with adrenal insufficiency. Brunner JE. 1985;33:45-7.

Nuclear magnetic resonance
Applications of magnetic resonance imaging in clinical urology. Demas BE, Hricak H. 1985; 33:128-32.

Nuclear magnetic resonance: Current and future clinical applications. Froelich JW, Hearshen DO, Halpert RD, Patel S. 1985;33:122-7.

Nuclear medicine
Current concepts of metabolic functional imaging with positron emitters. Keyes JW Jr. 1985;33:138-41.

Oxygen tension
The invalidity of monitoring transcutaneous oxygen tension in patients who have chronic renal failure. Armstrong JR, Kreps TW, Conway WA, Dumler F, Popovich J Jr. 1985;33:57-60.

Peutz-Jeghers syndrome
Evaluation of Peutz-Jeghers syndrome in a family. Ozkan K. 1985;33:209-13.

Probability
A graphical aid to medical decision making. Benish WA. 1985;33:34-5.

Clinical trials: II. Randomization and sample size. Tilley B, Schork A. 1985;33:219-24.

Radiography
Computed tomographic and sonographic characterizations of central nervous system masses. Madrazo BL, Sanders WP, Mehta B, Dujovny M, Sandler MA, Chason DP, Chason JL, Ausman JI. 1985;33:69-73.

Diagnosis of hepatic portal venous gas by computed tomography: Role of intravenous contrast material. Haggar AM, Sandler MA, Gross ML, Madrazo BL. 1985;33:36-8.

Diagnostic imaging in the 1980s: Quo vadis? Thrall JH, Halpert RD. 1985;33:67-8.

Digital radiography: A review. Kastan DJ, Ackerman LV, Feczko PJ, Beute GH. 1985;33:88-94.

Enteroclysis for the examination of the small bowel. Halpert RD, Feczko PJ, Keller CE, Iorio J. 1985;33:116-21.

Mammography: Still the imaging standard. Keller CE, Watt AC. 1985;33:82-7.

The tube esophagogram in cases of possible esophageal stricture: A technical note. Dubin LM, Halpert RD, Feczko PJ, Kottamasu SR. 1985;33:102-4.

Renal failure
The invalidity of monitoring transcutaneous oxygen tension in patients who have chronic renal failure. Armstrong JR, Kreps TW, Conway WA, Dumler F, Popovich J Jr. 1985;33:57-60.

Sclerocornea
Hereditary sclerocornea. Barsky D, Dunn SP. 1985;33:185-9.

Subtraction technic
Digital subtraction angiography of the abdomen: Henry Ford Hospital experience. Sharma RP, Krasicky GA, Burke MW, Jampala SB, Shetty PC, Swanson DP. 1985;33:105-11.

Preliminary experience with digital subtraction angiography in cardiac evaluation. Burke MW, Shetty PC, Sharma R, Brymer JF, Khaja F. 1985;33:95-101.

Thrombocytopenia
Dermatomyositis complicated by thrombotic thrombocytopenic purpura. Sawdyk MA, Jundt J. 1985;33:214-8.

Tomography, emission computed
Current concepts of metabolic functional imaging with positron emitters. Keyes JW Jr. 1985;33:138-41.

Tomography, x-ray computed
Diagnosis of hepatic portal venous gas by computed tomography: Role of intravenous contrast material. Haggar AM, Sandler MA, Gross ML, Madrazo BL. 1985;33:36-8.

Toys
Playing with medicine: A historical perspective. Beierwaltes WH. 1985;33:27-33.

Ultrasonics
Computed tomographic and sonographic characterizations of central nervous system masses. Madrazo BL, Sanders WP, Mehta B, Dujovny M, Sandler MA, Chason DP, Chason JL, Ausman JI. 1985;33:69-73.

The incidence of calculi in focal nonshadowing echogenicity in the gallbladder. Sandler MA, Biunno EM, Gross ML, Madrazo BL. 1985; 33:112-5.

Urologic neoplasms
Applications of magnetic resonance imaging in clinical urology. Demas BE, Hricak H. 1985; 33:128-32.

Visual acuity
Intraocular lens implant image quality: The optico-retinal interface. Bogorad DD. 1985; 33:153-9.
